

## Tides

Come storm, come fire, we stride in thunder  
Sea torn asunder now wears the crown  
Lust, loneliness, unearthed rejection  
Soul resurrection in forms unknown

New fiend swept off the stains of time  
On a course to a destination  
Earthbound yet undetainable,  
defiant to ride with the tide  
Soulflight to a realm beneath the soil  
Do you deserve a compensation?  
Lost hope in a maelstrom  
Still drifting with the tide

Faint recollection, becoming disaster  
Obey the master who sings of doom  
Assured demise but who's going under  
Possessed to plunder the virtue in truth

Come storm, come fire, we stride in thunder  
Sea torn asunder now wears the crown
